

Separation between Israelis and Palestinians is Essential

HERE'S WHY

POPULATION BREAKDOWN

from the MEDITERRANEAN SEA
to the JORDAN RIVER

2015 52% JEWISH

2020 49% JEWISH

2030 44% JEWISH

**No separation today means
a Palestinian majority by 2020.**

According to a recent poll, 97% of Israeli Jews want to live in a Jewish state.¹
Without a two-state solution, Israel will end up as a binational state: half-Jewish, half-Arab.

In a few more years, it will be too late. The dream of a Jewish state will be lost. Mr. Prime Minister, your people want to live in a Jewish state, not half-Jewish, half-Arab – you can make it happen.

**Separation today means a Jewish majority
State of Israel now and for generations ahead**

*It's time for separation:
Two States for Two People*
