

*The greatest existential threat to the Jewish, democratic state of Israel is continuing the status quo.*

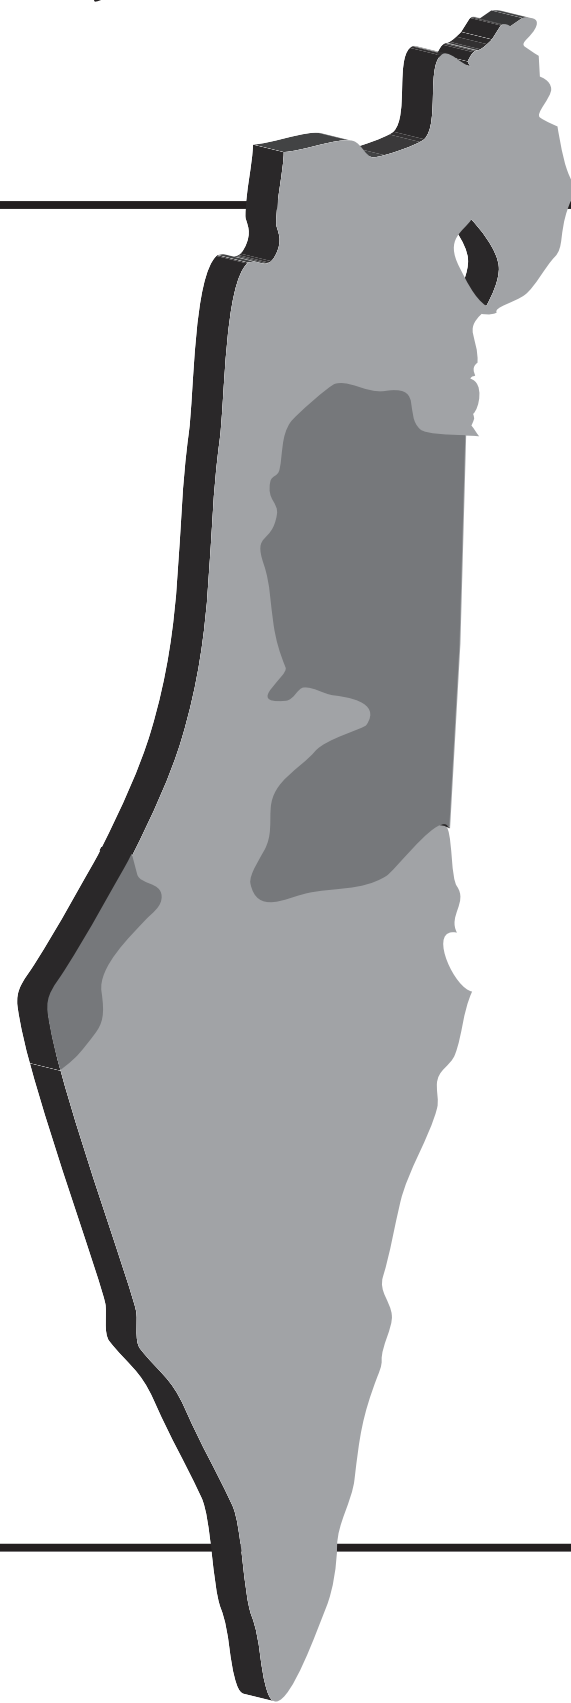

## POPULATION BREAKDOWN

*from the MEDITERRANEAN SEA  
to the JORDAN RIVER<sup>1</sup>*

**2015** 52% JEWISH

**2020** 49% JEWISH

**2030** 44% JEWISH

It's not a question of right or left nor a question of right or wrong. It's a question of fact.

According to a recent poll, 97% of Israeli Jews want to live in a Jewish state.<sup>2</sup> Without a two state solution to the Israeli-Palestinian conflict, Israel will end up as a binational state: half-Jewish, half-Arab.

In a few more years, it will be too late. The Zionist dream of a Jewish state will be lost. Mr. Prime Minister, listen to your people, they want to live in a Jewish state, not half-Jewish, half-Arab – you can make it happen.

One state or two?*
